

**ICOE**  
**2014**  
INTERNATIONAL CONFERENCE  
ON OCEAN ENERGY

NOVEMBER 4-6, 2014  
Halifax, Nova Scotia Canada

[ICOE2014CANADA.ORG](http://ICOE2014CANADA.ORG)

---

## Thinking about attending ICOE 2014?

### *Five reasons to attend the world's largest ocean energy event in Halifax, Nova Scotia this November*

- 1. Identify new opportunities.** ICOE has grown to almost 1000 participants representing over 40 countries. It is *the* place to engage with the world's leaders and experts in marine renewable energy and discover emerging opportunities in the global market. The conference program and [complimentary B2B service](#) provide ample opportunities to make new contacts.
- 2. Show the world what you have to offer.** As an emerging sector, marine renewable energy projects require new innovations and expertise. ICOE has a range of [exhibition](#) and [sponsorship](#) opportunities that can help profile your company or organization's strengths.
- 3. Expand your business reach.** In addition to strengths in marine renewable energy, [Canada is a powerhouse in ocean expertise](#). The ICOE 2014 [Gala Dinner](#) will provide an opportunity for delegates to network with local businesses and organizations.
- 4. Visit a natural wonder.** The [Bay of Fundy](#) is well known for having the highest tides in the world. As an ICOE delegate you can experience the power of Fundy first-hand during two complimentary site visits to the [Fundy](#)

[Ocean Research Center for Energy \(FORCE\)](#) and the [Annapolis Tidal Power Station](#).

**5. Discover opportunities in Nova Scotia's growing tidal energy industry.** Supported by Nova Scotia's *Marine Renewable Energy Strategy*, tidal energy development is advancing with leading developers working at the [FORCE](#) and [Fundy Tidal Inc.](#) sites. Learn more about Nova Scotia's actions to establish The Fundy Standard:
