

# Aberdeen Evening Meeting

## Question Time - What does the Future Hold for the Offshore Energy Sector?

### Wednesday 20 September 2017

Registration 5.30pm - Start 6pm  
The Sir Ian Wood Building, RGU  
Garthdee Road Aberdeen, AB10 7QB United Kingdom

#### Registration Fees

SUT Members: £15   Non-Members: £25   Student Members: £7.50   *inclusive of VAT*  
*Payment online at [www.sut.org/events](http://www.sut.org/events) or on the door*

The Aberdeen Branch of the SUT is hosting a Question Time event to kick-off our new calendar year. We have assembled a cross-industry panel and developed the themes to stimulate the debate on the future of the offshore energy industry, with emphasis on the all-important Subsea Technology Sector. We look forward to welcoming you along to what promises to be “an evening with a difference”.

The 5-member panel for the evening will be:

- **Stephen Hall**, Chief Executive of SUT - *Chairman and Moderator for the evening*
- **Professor Ekaterina Pavlovskaja**, Director of Postgraduate Teaching, School of Engineering, The University of Aberdeen
- **Ronnie Quinn**, Chief Executive, Crown Estate Scotland
- **Louise Goetz**, Europe Region Leader for Subsea Systems, GE Oil and Gas
- **Dave MacKinnon**, Head of Technological Innovation, Total UK

There will be at least 3 areas to be explored during the evening, with supplementary discussion involving the panel and the audience. The main themes for our Question Time are;

- *The Shape of Future Subsea Developments on the UKCS*
- *Political Issues Impacting Future Developments on the UKCS*
- *The impact of the Low Carbon Transition to Technologies and Contractors in the subsea sector*
