

Changing Landscapes, Changing Sub-seascapes

Solutions - The 10-tenets:

**To be successful,
management measures or
responses to changes
resulting from human
activities should be:**

- Ecologically sustainable
- Technologically feasible
- Economically viable
- Socially desirable/tolerable
- Legally permissible
- Administratively achievable
- Politically expedient
- Ethically defensible (morally correct)
- Culturally inclusive
- Effectively communicable

**Professor Mike Elliott,
IECS, University of
Hull**

The UK and Marine Scotland vision:
*“clean, healthy, safe, productive,
biologically diverse marine and
coastal environments, managed to
meet the long-term needs of people
and nature”.*

*(NB spellcheck -
not “a good night
in Scotland”!)*
