CALL FOR PAPERS

Underwater Technology: International Journal of the Society for Underwater Technology

The Society for Underwater Technology is calling for papers for its international journal, *Underwater Technology*. The journal publishes peer-reviewed technical papers on all aspects and applications of underwater technology, including:

- **diving technology and physiology**
- **environmental forces**
- **geology/geotechnics**
- **marine pollution**
- **marine renewable energies**
- **marine resources**
- **oceanography**
- **subsea systems**
- **underwater acoustics**
- **underwater robotics**
- **underwater science**
- **underwater vehicle technologies**
- **salvage and decommissioning**

Original papers on new technology, its development and applications, and papers covering new applications for existing technology, are particularly welcome.

Submissions should adhere to the journal's guidelines available at www.sut.org/publications/underwater-technology/guidelines-for-authors/

For more information or to make a submission, please contact the Assistant Editor, Elaine Azzopardi, at Elaine.Azzopardi@sut.org
