

Subsea Awareness Course

20th – 24th May 2019

Parmelia Hilton,
14 Mill Street Perth, 6000

This five-day Course has been designed by industry and is suitable for contractors, engineers, operators and those new to subsea, those transferring from other disciplines within the industry and those who have worked in subsea previously but would benefit from a refresher course and exposure to the latest technology.

Whilst most of the course will be presented in a 'classroom' environment, the sessions will be interactive, with the opportunity to ask questions and discuss what has been learnt. In particular, hands-on and visual components have been included wherever possible to enable delegates to view software models and products destined for subsea service.

The course also hosts two site visits, taking delegates out of the classroom and into the real life subsea industry plus a networking dinner.

Delegate Reviews:

"Great combination of theory and site visits." – local Operator

*"Well run course, good content, diverse speakers.
Right level of coverage and details for awareness course." – local Operator*

"Site visits were an excellent idea – helps to visualise the equipment first hand" – local Operator

"Coverage of many different areas at the right amount of depth. . ." – Graduate Engineer GE Oil & Gas

"Presenters are very professional in their area." – UWA Lecturer

*"Great technical knowledge shown by all presenters and
great insight to current projects in the industry." – Curtin Engineering Student*
