A discussion of current offshore regulations, including the OGA's drive to release more data and collaborate; also covering the OGA's intention to be more robust in its approach, to ensure delivery of MER UK Strategy against the backdrop of improving UKCS performance.

### Presenter: Gunther Newcombe

Gunther Newcombe is responsible for the OGA's Exploration and Production agenda. He joined the OGA from BP in June 2015 after a long and diverse career in the oil and gas industry, holding a number of exploration, operational and business leadership roles over a 35 year career (including 15 years' experience of the North Sea). Gunther has the ability to establish high performing teams by providing strategic and business direction coupled with a firm knowledge of business processes and cultural awareness. He has a track record of delivering improved safety and business performance linked to clear strategic goals, with a strong focus on development and motivation of staff to ensure business delivery and sustainability.
