

Subsea Engineering Competency Framework

Launch to the public hosted by SUT & EA

ENGINEERS
AUSTRALIA

The Society for Underwater Technology and Engineers Australia are excited to launch the Subsea Engineering Competency Framework to the public. This development has been a voluntary collaboration between individuals and companies involved in Subsea Engineering in Australia and abroad.

Wednesday 25th March 2020 | The George (London Room) | 5.00pm – 7.30 pm

The event programme will describe:

WHAT | HOW | WHO | ACKNOWLEDGEMENTS | FUTURE

The initial Framework has been developed to recognise Chartered Professional Engineers, CPEng (Subsea Engineering).

Details here: <https://www.sut.org/branch/australia-perth/subsea-engineering/>

We are currently working on extending that Framework to encompass the entire career of all involved in Subsea, from students through to Subject Matter Experts including Engineering Technologists and Engineering Associates.

Thank you to our event sponsor
