

SPONSORSHIP OPPORTUNITIES

Joint Industry Event: Can Offshore Operations be Environmentally Sustainable?

The Society for Underwater Technology, THS:UKI Scotland Branch & The International Marine Contractors Association are pleased to announce our programme for our joint seminar.

Sustainability is an increasingly discussed topic in the offshore energy industry, with terms like Net-Zero operations, electrification, carbon capture, renewable energy, alternative fuels and remote operations all critical to the overall sustainability goal.

How can offshore operations be as environmentally sensitive as possible?

SPONSORSHIP PACKAGE INCLUDES:

Popup banner and tabletop space in breakout area

Company logo displayed on all event materials, holding pages and social media postings.

One entry ticket to the event.
