

AUTONOMOUS MARINE TECHNOLOGY CONFERENCE

October 28-30 2025

PERTH, WESTERN AUSTRALIA

Scaling the seas: Building and operating robust autonomous maritime systems

ICE-BREAKER / NETWORKING EVENT

TUE 28th OCTOBER 2025

Frasers Restaurant, Kings Park

CONFERENCE

WED 29th - THURS 30th OCTOBER 2025

Parmelia Hilton, Perth

THE AUSTRALASIAN HYDROGRAPHIC SOCIETY & THE SOCIETY FOR UNDERWATER TECHNOLOGY CO-HOST THEIR 13TH AUTONOMOUS MARINE TECHNOLOGY CONFERENCE

Returning in 2025, the Autonomous Marine Technology Conference (AMT) – formerly Autonomous Underwater Technology Conference, will be held in Perth, Western Australia in October. The conference aims to showcase the rapid advances in the AMT field along with demonstrating real world and future potential applications of the different technologies within our marine environment.

This long running and well reputed conference continues to be one of the most globally essential knowledge centres and networking opportunities in this field, allowing delegates to meet with industry leaders, academics and researchers in this innovative section of subsea development.

In addition, you'll gain invaluable insights and new learnings about technology advances and recent case studies of AMT equipment to assist in your professional development.

WHO SHOULD ATTEND?

The conference provides an ideal networking opportunity for all types of professions working in robotics, autonomous systems and artificial intelligence in the maritime industry.

Delegates are welcomed from Defence, Australian based and international operators, manufacturers/suppliers of technology products and software, engineering organisations, service companies and educational establishments.

The conference will provide an opportunity to come together to share information on operational experiences, as well as learning of new technologies and future developments in marine autonomy.

- Defence
- Operators
- Technology manufacturers
- Software developers
- Engineering organisations
- Marine service providers
- Educational and research organisations

October 28-30 2025

PERTH, WESTERN AUSTRALIA

PROGRAMME

ICE BREAKER: TUESDAY 28 OCTOBER 2025, FRASERS, KINGS PARK

1730–2000 Enjoy sweeping views of Perth City

Welcome Address: TBC

CONFERENCE DAY 1: WEDNESDAY 29 OCTOBER 2025, PARMELIA HILTON PERTH (Argyle Ballroom)

0830-0915	Registration/Coffee
0915-0930	Introduction by SUT Chair
0930-1000	Keynote - TBC, Royal Australian Navy
1000-1025	Remote and Autonomous Systems Upskilling Phil Wells, Cyan Renewables
1025-1100	MORNING TEA
1100-1125	Enabling True Underwater Autonomy Through Advanced Optical Sensing and Real-Time Vslam Andrew Douglas, Voyis
1125-1150	A Modular Framework for Multi-Sensor Edge Processing to Advance Autonomous Maritime Survey Operations Luke Whitehead, Cathx Ocean
1150-1215	ORCA crawler for Hull Inspections Stephan Freychet, TSC SUBSEA
1215-1315	LUNCH
1315-1340	Achieving vessel-free subsea inspection and intervention: the resident drone daily operations Joel Weston, Saipem
1340-1405	Remote Subsea Operations: Integrated Positioning, Communication, and Recovery of Autonomous Underwater Vehicles Mark Roberts & Spencer Collins, Kongsberg Discovery
1405-1430	Revolutionizing Navigation for Small Robotic Vehicles Aidan Thorn, Sonardyne
1430-1500	AFTERNOON TEA
1500-1525	Hydrus Micro AUV: Taking the Data Revolution Underwater Stephanie Qiu, Advanced Navigation
1525-1550	Towards large scale, persistent, UUV operations Ben Hollings, Blue Ocean Marine Tech Systems
1550-1600	Closing remarks
1600-1730	DAY 1 SUNDOWNER DRINKS (Parmelia Hilton)

AUTONOMOUS MARINE TECHNOLOGY CONFERENCE

October 28-30 2025

PERTH, WESTERN AUSTRALIA

PROGRAMME

CONFERENCE DAY 2: THURSDAY 30 OCTOBER 2025, PARMELIA HILTON PERTH (Argyle Ballroom)

0845-0900	Tea & Coffee
0900-0910	Day 2 Introduction
0910-0935	Machine Learning Guidelines developed by Bureau Veritas Marine and Offshore (NI692) Ric Barbiellini, Bureau Veritas M&O
0935-1000	Uncrewed Surface Vessels: Enabling Scalable Capability under Real-World Constraints Fergus Hudson, Austal Limited
1000-1025	Software-Defined Autonomy: Utilising Horizontal Integration to Scale Remote and Autonomous Maritime Operation Peter Baker, Greenroom Robotics
1025-1100	MORNING TEA
1100-1125	Pioneering Remote Operations: From Proven Performance to Future Frontiers Ben Fell, Fugro
1125-1150	Reach Remote Pilot Transitions from Pilot to Operations Paul Kennedy, REACH Subsea
1150-1215	USV Fremantle 01: Operationalising Autonomous Hydrography for the Australian Coastline Charles Collins, EGS Australia
1215-1315	LUNCH
1315-1340	Enabling Multi-Day Long-Range Autonomy for USV Fremantle 01: Design, Compliance, and Operational Strategies Pierre-Louis Constant, Oceanomatics
1340-1405	Growth and Development of USV Applications in Australia: An XOCEAN Perspective Peter Batri, XOCEAN
1405-1430	Established Unmanned Surface Vessels: A Shallow-Water Hydrographic Multibeam Survey Case Study Kris Matthews, Unique Group
1430-1500	AFTERNOON TEA
1500-1525	Acoustic and Environmental Monitoring using Gliders Craig McPherson, JASCO Applied Sciences (Australia)
1525-1550	Information as a Service - A new data model to facilitate ocean research Nick Rozenauers, Ocius Technology Ltd and BMT
1550-1600	Closing remarks
1600-1745	CONFERENCE CLOSING DRINKS (Parmelia Hilton)
