

# Subsea Awareness Course

An essential 5 day course designed & delivered by industry experts

### Monday 1 Sept - Friday 5 Sept 2025

Cliftons, Parmelia House, 191 St Georges Terrace, Perth WA 6000

# Subsea Engineering deals with the design, construction, installation, operation, maintenance and decommissioning of equipment in the ocean or on the seabed.

This is an essential course providing a greater understanding of the subsea environment. Upon completion of the course our expert presenters will have covered the following topics:

- Introduction to Subsea
- The Seabed
- Flow Assurance
- Wellheads & Trees
- ▶ Inspection, Maintenance & Repair
- Umbilicals
- ► Control Systems & Control Fluids
- ▶ Risk, Reliability & Availability
- Pipelines & Risers
- Subsea Processing
- Installation
- Case Study

### WHY WILL THIS COURSE BENEFIT YOU?

The Subsea Awareness Course is aimed at those who need to have a greater understanding of subsea and how this impacts the effectiveness of their work.

Whilst most of the course will be presented in a classroom environment, the sessions will be interactive, with the opportunity to ask questions and discuss what has been learnt. In particular, hands-on and visual components have been included wherever possible to enable delegates to view software models and products destined for subsea service.

The course also hosts two site visits, taking delegates out of the classroom and into the real life subsea industry plus a networking event.

### WHO SHOULD ATTEND?

Contractors, engineers, operators and those new to subsea, those transferring from other disciplines within the industry and those who have worked in subsea previously but would benefit from a refresher course and exposure to the latest technology.

### **COURSE SCHEDULE**

### DAY 1 MONDAY 1 SEPT 2025

07.45	Registration
08.00	Welcome & Introductions
08.15	Shell Video
08.45	Introduction to Subsea Peter Brownlie, Worley
10.15	Morning Tea
